SUMMARY

Data platform engineer with two decades in software and the last five focused on data engineering — building streaming and batch pipelines, leading distributed teams, and shipping cloud-native systems on AWS, Azure, and GCP. Currently leading data platform development at EPAM Systems, previously built reporting and CRM systems at Sberbank. Ships side projects on GitHub in the gaps between — bots, pipelines, small tools that solve real problems.

SKILLS

Core

Data Engineering, Business Intelligence, Data Collection & Analysis, Engineering Management

Languages & Frameworks

Python (5y), Java (13y), PySpark

Data & Orchestration

Databricks, Airflow, Relational Databases

Cloud

AWS, Azure, Google Cloud Platform

Infrastructure & CI/CD

Terraform, Jenkins, Kubernetes, Docker

Spoken Languages

English — B2, Spanish — A2

CERTIFICATIONS

Amazon Web Services

Developer Associate · Solutions Architect Associate · Data Analytics Specialty

Microsoft Azure

Data Engineer Associate · Developer Associate · AI Engineer Associate

Google Cloud Platform

Associate Cloud Engineer · Professional Data Engineer

EXPERIENCE & EDUCATION

Lead Data Engineer

EPAM Systems Spain S.L.

03/2019 — Present

· Málaga, Spain

- Leading a team of 4 engineers, owning SLA for a retail-domain data platform
- Building streaming and batch pipelines with PySpark; microservice and monolith applications in Python and Java
- Design and code reviews across retail and life-science domains
- Monitoring and improving performance, scalability, and reliability
- Mentoring junior/mid engineers; running technical and project interviews

Senior Software Engineer

Sberbank

11/2014 — 03/2019

· Moscow, Russia

- Analyzed requirements and built Java solutions for a call-center CRM
- Developed and integrated unified internal reporting services
- Coordinated with project managers on timelines and test planning
- Owned end-to-end testing for delivered features

Education

Vyatka State University

05/2004

· Russia

Associate of Science — Computer and Information Sciences
